WORK EXPERIENCE

Full Stack Web Developer Intern | Women Fortune Tech

June 2026 – Present (Ongoing)

- Developing full-stack web solutions as part of the Women Fortune Tech internship program.
- Building and maintaining features across the company website including Home, Courses, Services, and Team pages.
- Collaborating with the team to deliver responsive, polished interfaces aligned with company branding.
- Contributing to admin dashboard development for internal content and user management.

Full Stack Developer | GAO Tek Inc.

November 2025 – Present (Ongoing)

- Developed and maintained web features using modern front-end and back-end technologies.
- Built and customized WordPress websites including WooCommerce e-commerce stores, Elementor-based layouts, and Contact Form 7 integrations.
- Collaborated with cross-functional teams to deliver responsive, production-ready interfaces.
- Contributed to code reviews and ensured adherence to web development best practices.

MERN Stack Intern | UDEVs

September 2025 – December 2025

- Built full-stack features using MongoDB, Express.js, React.js, and Node.js.
- Integrated RESTful APIs and implemented dynamic front-end components.
- Participated in agile sprints and contributed to team stand-ups and code reviews.

Front-End Web Developer Intern | CodeAlpha

November 2025 – December 2025

- Developed responsive UI components with HTML, CSS, and JavaScript.
- Optimized pages for performance and cross-browser compatibility.

PERSONAL PROJECTS

Women Fortune Tech Website *(React.js, Node.js, Firebase)*

Full-stack company website featuring a Home page, Courses catalogue, Services overview, and Team section. Includes a fully functional Admin Dashboard for managing course listings, team members, and service content. Responsive design with role-based access control and real-time data via Firebase Firestore.

Airport Management System *(React, Vite, Firebase)*

React-based system with full CRUD for flights, passengers, and staff records. Used Firebase Firestore for real-time data and modular component architecture.

School System Website *(HTML5, CSS3, Bootstrap 5, Firebase)*

Responsive landing page with interactive Admission Form, Faculty directory, and subject listings. Implemented real-time CRUD for student admissions and faculty records via Firestore.

E-Commerce Website *(HTML, CSS, JavaScript)*

Responsive store with separate men's and women's categories, shopping cart, and dynamic product filtering.

Weather App *(JavaScript, REST API)*

Fetches and displays real-time weather data for any location using a public weather API.

Recipe Blog Website *(HTML, CSS, JavaScript)*

Comprehensive recipe platform with dynamic content display and optimised readability.

Personal Portfolio Website *(HTML, CSS, JavaScript)*

Professional, responsive portfolio showcasing web development and graphic design work.

EDUCATION

Bachelor of Computer Science University of Peshawar 2023 – 2027 *(Ongoing)*

FSC (Pre-Engineering) Jinnah College for Women, Peshawar 2021 – 2023

Matriculation Cambridge Public School, Khar Malakand 2009 – 2021
